

2
cont

is phenyl group, a lower-alkyl phenyl group, a lower-alkoxyphenyl group, a halo-phenyl group; furyl group, a nitro-furyl group, a halofuryl group; thiazolyl group, a lower-alkyl-thiazolyl group, a halo-thiazolyl group, or a 3-lower-alkylthiazolo group bearing no or a further lower alkyl substituent, and a pharmaceutically acceptable salt or ester of said cephalosporin compound.

Claim 2, line 2, delete "general";

next to the last line, change "alkoxy" to

--alkoxy--.

Claims 3, 4 and 6 and 7, line 2 of each, delete "general".

Claim 5, line 2, delete "general";

line 3, after the structural formula, insert

--X--;

last line, after "group" insert -- and X is a

halide--.

Claim 9, last line, delete "trifluoroacetate" and

substitute therefor --acid addition salt with trifluoroacetic acid--.

Claim 12, delete lines 3 through 8;

line 12, delete "trifluoroacetate" and substitute therefor --acid addition salt with trifluoroacetic acid;

next to the last line, delete "trifluoroacetate" and substitute therefor --acid addition salt with trifluoroacetic acid--.

Claim 14, last line, delete "di-trifluoroacetate" and substitute therefor --its acid addition salt with trifluoroacetic acid--.

Claim 16, line 2, change "(4-methylthiazole-5-yl)" to --(4-methylthiazole-5-yl)--.
